Rane Polytechnic Technical Campus	2020 - 2023
Diploma	
Bishop Heber Higher Secondary School	2019 - 2020
SSLC	

PROJECTS

Implementation Of Interactive web based Alumni Management System:

An interactive web-based Alumni Management System connects alumni and institutions through a centralized platform for updates, events, and networking. It supports profile management, communication, and data-driven improvements to academic programs.

Role: Backend Developer

Smart Black box using IOT

An IOT based black box captures vehicle data like speed, location, impact, and environmental conditions, transmitting it to the cloud for analysis and enhancing safety, diagnostics, and accident investigations

Role: Documentation

AI- Powered Personalized Recipe Generator

AI-driven recipe generator delivering personalized, adaptive meal suggestions based on needs, preferences, and kitchen inventory, continuously refined through user feedback to reduce waste and enhance healthy cooking.

Role: Front end

Agentic AI - Based Learning Management System

Agentic AI-Based LMS integrates FastAPI, React, and SQLite to deliver modular, scalable, learner-centered education with authentication, AI recommendations, adaptive quizzes, analytics dashboards, and personalized learning paths.

Role: Model Tranning

INTERNSHIP

Johnbhai Softcom pvt ltd (Web Design)

Completed 15-day Online internship at Johnbhai Softcom Pvt Ltd, skilled in HTML, CSS, JavaScript, responsive design, UI/UX, Git.
